

# TPS 250 Litre IBC

## Replacing the Conventional drum

The **TPS 250 litre IBC** is a compact container specifically designed for the storage and transport of liquid products of high value.

Designed for storing and discharging high cost liquid products this unique **TPS 250 litre IBC** container replaces the conventional drum. It is easier to handle, fill and discharge in small quantities. With a 4:1 return ratio when stacked this IBC also offers transport and storage savings.

For specifications see overleaf.
