

# TPS 500 Slim IBC

The **TPS 500 Slim IBC** is a bespoke container for the storage and transport of liquid products to and from smaller processing areas.

The TPS 500 Slim container is a bespoke IBC designed for where standard containers do not work within processing areas that have limited space. It is of one piece design, non-folding, with a front drop panel for ease of loading and an integral lid. TPS have the ability to design and manufacture containers to suit customer-specific applications.

For specifications see overleaf.
